Experiment – 3
Design of Google Logo using GIMP

1. Open GIMP

2. Create a new file. **File -> New.** Select a size of 1920x1080.

3. Go to **View -> Select the Snap To Guides** option.

4. Go to Image -> Guides -> Guides by % -> Choose 50% horizontal guide. Similarly choose 50% vertical guide.

5. From toolbar, select the Ellipse Tool -> Take the cursor to the intersection point of the guides -> Draw a circle > Hold Ctrl+Shift to position it at the centre.

6. Go to **Select -> To Path.**

7. Go to **Select-> None.**

8. Go to Path -> Select the eye icon -> Add some text using Text Tool

9. Right click on the text layer -> Choose text along path-> Turn off the visibility of the layer -> add new layer with it.

10. Go to path, Text -> Right click on the path -> Select Path to selection

11. Go to Edit -> fill with FG color
